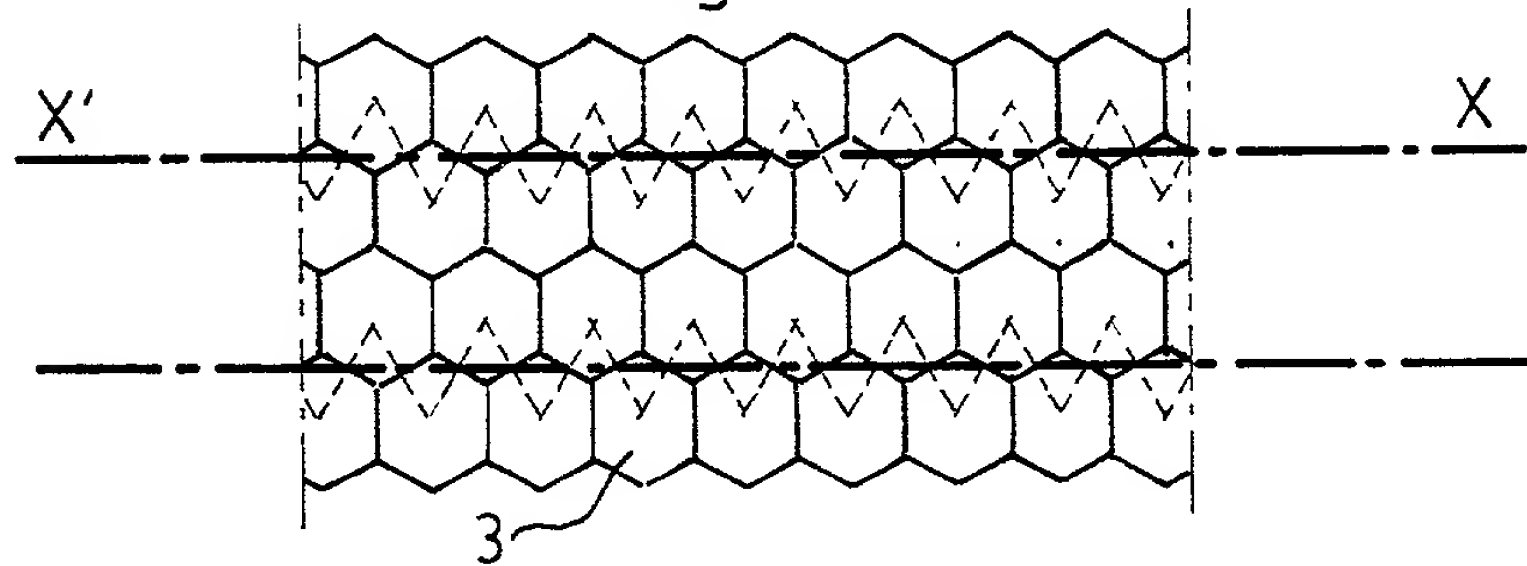

Fig. 9

A hand-drawn graph showing the variation of current I_2 versus scanning direction. The vertical axis is labeled $I_{2\max}$ and $I_{2\min}$. The horizontal axis is labeled Scanning Direction. The curve shows a series of peaks and troughs, with the first peak labeled $I_{2\max}$ and the first trough labeled $I_{2\min}$. The curve ends with a tilde symbol and the number 37.
